Product ID: ISWA5 - Instanta WA5 Great Value Wall Mounted Automatic Water Heater

Instanta WA5 Great Value Wall Mounted Automatic Water Heater

Using the same electronics as the 1500 and 3000, the WA5 provides a plentiful supply of hot water within a simple stainless steel case. Following the huge success of our wall mounted boiler range, we have added this new value model. Instead of the stylish moulded case this boiler uses a simple stainless steel outer fabrication. Water byelaws approved, and built to our usual rigorous quality standards, the WA5 uses advanced electronics which maintains the water at 98c. The boiler has boil dry protection, a long life incoloy element and a large non drip tap. We believe that this is the most competitively priced stainless steel wall mounted boiler available.

Compact and reliable Large non drip taps with brass spindle Self priming Long life incoloy elements Boil dry protection Low voltage switching Optional drip trays Basic fault self diagnosis 12 months parts and labour guarantee 2 metre food quality hose with 3/4" BSP female connections (does not apply to WA5) Thermistor controlled for constant hot water temperature of 98°C Easy access for service and cleaning.

Height: (mm) 420

Width: (mm) 285

Depth: (mm) 175

Heat up time mins: 18
