Product ID: ISAF40 - Instanta AF40 Heated Cup Warmer

Instanta AF40 Heated Cup Warmer

A stylish, space saving cup warmer to keep cups warm and ready to serve. The AF40 has the unique Instanta nylon runners which protect the cups and the holder from unsightly scratches. Designed to hold 40 standard 85mm diameter stacking cups, the AF40 can be modified at the factory to take cups of 80,75 and 70mm. The AF40's unique design means, when counter space is at a premium, it takes up only 60% of the space needed for conventional carousels. Built to the high quality you have come to expect from Instanta, the AF40 has the capacity to hold 40 (85mm maximum diameter) stacking cups. Using only 100w power, the AF40 helps you to serve piping hot drinks by substantially reducing the temperature drop caused by cold cups. The AF40 apertures can be adapted at the factory from the standard 85mm to take 80, 75 and 70mm diameter stacking cups (please specify at time of order). Also available unheated for storage only (Model AF40/U)
